

Datacard® IDCentre™ Gold Identification Software

IDCentre Gold edition software is the ultimate package in card design and production featuring smart card capabilities.

A complete ID program solution

Datacard® IDCentre™ Gold identification software is the ideal choice for today's most sophisticated ID programs. Separate packages for design and production — combined with smart card capabilities — create one of the most powerful and complete ID program solutions available. Discover how the modular platform of IDCentre Gold software keeps you in total control of your ID card program.

Advanced features for sophisticated ID cards

- Datacard® IDCentre™ Gold Production software makes it easy to enter and retrieve data, capture images and print cards and reports using an intuitive interface.
- Increase the security of cards, reports, production forms and data storage by adding event-handler buttons and binary fields.
- Datacard® IDCentre™ Gold Designer software allows you to access ID information stored in a directory service through the Lightweight Directory Access Protocol (LDAP) or connect to an ODBC-compliant, multiple-table database.
- The Datacard® IDCentre™ View software feature provides view-only access to your database, which makes it easy to add checkpoints for visual verification.

Datacard Group

SECURE ID AND CARD PERSONALIZATION SOLUTIONS

Datacard® IDCentre™ Gold Identification Software

With separate packages for card design and production, IDCentre Gold software allows you to distribute workflow effectively in your secure ID card programs.

Standard features

- User-defined card size (CR50, CR80, custom)

- In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
- Image and signature storage as BLOBs or files
- Quick, advanced and stored searches
- Multiple images per record
- Crop and adjust existing photo
- Data-driven production
- Wizards for managing user account privileges
- Text field masking
- PDF417 binary bar code support
- Auto-create Microsoft® Access 2000 database; databases supported include Microsoft Access 2000, 2002 and 2003; Microsoft® SQL Server 7.0 and 2000; Oracle® Oracle8i and Oracle9i; IBM® DB2® Universal Server 7.1 and 8.1
- Biometric Server application
- Unicode support
- LDAP-compliant directory services (such as Microsoft® Active Directory® service)
- Supports multiple-table databases
- Software Developer's Kit
- Application- or activity-level user security
- Login timeout feature

- Restrict project access by user
- Secure user audit trail
- Smart Card Support Pack (includes Smart Card Application Manager plug-in and Proximity Card plug-in)
- Online user's guide, online help and help desk support
- USB security key
- Compatible with Datacard® CP40™, CP60™ and CP80™ card printers

Image capture options

- File input
- Datacard™ CS-100 camera
- Datacard® Photo Pointe™ and Photo Pointe™ Pro solutions
- Datacard® Signature Pointe™ solution
- TWAIN and Video for Windows capture devices

System requirements

- Microsoft® Windows® 2000 Professional; Windows XP Professional or Home Edition operating systems (installing the latest service pack is recommended)
- Microsoft® Internet Explorer Web browser (5.X or later)
- 500 MHz Pentium® processor (1.5 GHz Pentium® 4 recommended)
- 128 MB RAM (256 RAM recommended)
- 100 MB hard disk space for application (not including database)
- 10 MB hard disk space on C drive for installation of sample photos and sample database
- 15 MB hard disk space for Adobe® Reader® (if not already installed)
- 16-bit color/65,536 colors (some cameras may require higher color)
- 800 x 600 screen resolution (1024 x 768 recommended)
- CD-ROM drive
- Available USB port
